## Ham Arena, the Mount

Washington Valley's year-round ice skating facility has the second largest ice sheet in New Hampshire. With a seating capacity of 450, an estimated 250,000 people visit and utilize the facility annually.

Of our guests, 1/3 are visitors to the area and utilize local lodging accommodations, restaurants, retail and outlet stores as well as the many attractions this area has to offer. Ham Arena presently hosts 14 hockey tournaments annually, drawing participants from the northeastern U.S. and Canada. Each tournament generates as many as 80 overnight rooms at local lodging establishments, frequently staying multiple nights.

Ham Arena is home to the Mt. Washington Valley Youth Hockey Association. Each of its travel teams play at least 15 home games between November and March, hosting teams throughout N.H. and Maine. Many visiting hockey families look forward to their games at Ham Arena and often plan shopping, ski trips and other local activities around their hockey games.

The arena hosts over 20 locally televised events annually including Kennett High School and Fryeburg Academy hockey games, youth hockey tournaments and figure skating pageants.

During the "off season" when the snow is removed, Ham Arena has attracted hundreds of visitors to such events as a car show, home show, and a widely known children's jump rope contest.

Ham Arena supports such programs as After School Enrichment and Project Succeed, which benefit local children. Schools from Wolfeboro to Bartlett use Ham Arena as an alternative to ski days.

The purchase of a Dasher Board or Banner is not only an affordable way to promote your company to a large audience, but is also a great way to provide support to one of the finest skating facilities in the region.
